

# Future of the carbon market

Suva, Fiji  
2nd November, 2011

## **Micro-scale projects**

UNFCCC new additionality tool for micro-scale project (less than 5MW)

Gold Standard Validation Fun – free validation/verification for micro-scale project (less than 5,000 tCO<sub>2</sub> / year)

## **PoA projects**

all similar projects (small-scale) could be included into one PoA project

- Save money on avoiding repeating the validation process and there's no limitation on the boundary

## **Projects out of China, India and Brazil**

There are additional requirements on projects from these region, which make it's difficult to get the registration

**When you have a dream on running a project, please spend 5 minutes on thinking of CDM. If you are not sure, talk to CDM expert.**

**5 minutes = additional money!**

**TÜV Industrie Service GmbH**  
**TÜV SÜD Group**  
**Carbon Management Service**
