

Voluntary Carbon Project and
PoA Development – the
actions/support needed from
government

Easy Carbon Consultancy Co., Ltd.

Voluntary Carbon Project Development – Government actions

- VER supply – suggesting and provide guides to the project developer:
 - ✓ Create high quality VERs
 - ✓ Marketing VER is as important as developing VER
 - ✓ Highlight the “beautiful” of your VER

Voluntary Carbon Project Development – Government actions

- VER demand:
 - ✓ Suggesting bilateral cooperation among big entities for VER
 - ✓ Create VER needs
- Example: carbon neutral trip – focusing on GHG emissions by tourists:
- carbon neutral trip on islands sightseeing
 - voluntary for tourists
 - measurable and transparent
 - reasonable price for carbon neutral
 - interface friendly and easy use
 - small reward or label

PoA Development

- PoA shall be developed at least in country level, government coordination is very necessary:
 - ✓ Survey of potential opportunities
 - ✓ Provide favorite policy on projects both on CDM and financing
 - ✓ Provide capacity building on the potential sector
 - ✓ Help organization of projects and project developers
 - ✓ Provide statistic and figures regarding baseline info
 - ✓ Encourage, management and regulate to the Coordinating Entity
 - ✓ Dissemination on successful experience and established PoAs
 - ✓ Suggest UNFCCC to give more favorite policy on island countries
